

Monthly Safety Meeting

We practice for it (when first learning to fly) yet really don't expect it to happen -- until it does. That dreaded engine-out -- sooner or later most of us will experience it to one extent or another. Are we really ready? Mary Latimer (2015 District FAASTeam Representative of the Year, 2014 Regional CFI of the Year, and FAA Designated Flight Examiner) has prepared a program entitled "Engine Failure in Flight" where she relates how it can and has happened -- and what we can do to best insure our survival when it does happen. Wings credit will be awarded to attendees.

Directions: Drive to 1801 9th St, Wichita Falls.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
